

Connector\_to\_base.h

```
graph TD; A[Connector_to_base.h] --> B[map]; A --> C[string];
```

A diagram illustrating a header file dependency. At the top, a gray rectangular box with a black border contains the text "Connector\_to\_base.h". Two blue arrows originate from the bottom center of this box. The left arrow points down and to the left to a white rectangular box with a gray border containing the text "map". The right arrow points down and to the right to another white rectangular box with a gray border containing the text "string".
